Taking Trips with your Troop

Taking troop trips and attending offsite events is a fun and rewarding experience for your girls! Whether you have a day trip to the zoo or an overnight camping weekend, trips provide valuable and rewarding experiences for girls that cannot be provided at regular troop meetings!

For all trips, it is important to follow the proper process, including having all required forms, to:

- Help ensure the girls' safety during the trip, and
- Ensure that your troop is covered by Girl Scout insurance in the event of an accident. *

The [Annual Permission Form](#) allows girls to travel to, attend, and participate in troop and council-sponsored activities that are:

- Located within one hour's driving time of the regular meeting place.
- Not exceeding 6 hours in duration.
- Not considered high-risk activities as outlined in the GS [Safety Activity Checkpoints](#).

A [Troop Travel Application](#) is required for any troop activity/event that is not covered by the Annual Permission Form.

- The Troop Travel Application is submitted by a "Cognito Form" for Council approval.
- The Troop Travel Application requires you to upload copies of proof of training for trip leaders (if not in GS Learn), provide all details about the trip, including a detailed itinerary and indication of any high-risk activities, and upload a troop roster of all attendees.
- Leaders need to have completed *Stepping Out, CPR/First Aid certification, and AB506 requirements (i.e., Mandated Reporter Training and Live Scan), and Outdoor Training (if needed).*
- **Please refer to the travel timelines to understand your specific travel deadline.**

Parents need to complete: A [Specific Event/Trip Permission Form](#) for the event/trip your girl will attend. This is for your record, so you know all the event/trip information she is going to participate in. If the trip contains a High-Risk Activity, a [High-Risk Activity Permission Form](#) should be filled out (generally, activities of height, speed, requiring a helmet, or involving water) and given to the leader. If you need to complete the High-Risk Activity Permission form, you don't have to fill out the Specific Event/Trip Permission Form in addition.

GSCCC will check to be sure all trip participants are current Members or Nonmembers (all Nonmembers are covered by the Basic Plan insurance if they are designated participants on the trip), all adults have a live scan with GSCCC, and the training/certifications stated on the form are sufficient for the activities listed, based upon the Safety Activity Checkpoints.

Review the [Safety Activity Checkpoints](#) to ensure the activities are allowed and appropriate for your troop's age level and to determine if any additional training is required, and if it needs council approval.

- **[Stepping Out Test](#)**:** Required for any activity outside of meeting place. **Needs to be renewed every three years.**
- **[Outdoor Training](#)***:** Required for any outdoor camping (sleeping outside or in a tent), and for any outdoor cooking or involving fires, including campfires. **Only needs to be completed once.**
- **[First Aid/CPR Certification](#)****:** Certification required for all troop trips; additional training may be required – as indicated in Safety Activity Checkpoints. **NOT ACCEPTING Online Only certificates.**

* **[Insurance Basics:](#)** Girl Scout membership provides Basic Plan insurance (Plan 1) to cover most troop activities. However, some of the activities require additional insurance, including national and international trips. Please be sure to review any insurance requirements in advance for your trip to allow time for you to purchase additional insurance if needed.

** [Stepping Out Manual](#)

***/*[Adult Training Calendar](#)

**** An **[Adult CPR/First Aid Certificate](#)** must include an in-person practical skills component in the training. Basic Life Support (BLS) is not accepted unless the individual's primary occupation is within a field in which it is required, and they actively use this training within their occupational environment. A Child and Baby CPR/First Aid certificate is only accepted if the only girls being supervised are in the Daisy or Brownie program level (K-3).

**Some types of travel require troops to purchase [additional insurance](#):

- Activity accident insurance is a supplemental health insurance that protects all Member and Nonmember participants of Girl Scout sponsored/supervised events. There is no event duration time frame for Plan 1 coverage for all participants. Non-members are only covered if they are designated as a participant in the Girl Scout sponsored/supervised event.
- **Plan 3P:** This coverage provides accident plus sickness for Members and Nonmembers for any approved, supervised Girl Scout activity. GSCCC requires this when an event is a level 4 trip or higher, regardless of whether travel is or is not outside of council boundaries. This covers Members and Nonmembers as participants; **the coverage must be purchased for the entire period of the event and for 100% of the participants.** Nonduplication Provision DOES NOT apply.
 - **Cost: \$0.70 per participant per calendar day or portion thereof; \$5 minimum**
- **Plan 3PI:** This coverage provides accident plus sickness insurance with an emergency travel assistance service for Members and Nonmembers for any approved, supervised international Girl Scout activity. GSCCC requires this for all international travel. This covers Members and Nonmembers; **the coverage must be purchased for the entire period of the event and for 100% of the participants.** Nonduplication Provision DOES NOT apply.
 - **Cost: \$1.17 per participant per calendar day or portion thereof; \$5 minimum**
