

### **Bottle Bird Feeder**

#### **Supplies:**

- Plastic bottle
- Small rope
- 2 wooden spoons
- Scissors/knife
- Bird seed

#### **Directions:**

1. In the middle of the bottle, cut out a small hole on one side of the bottle. Make sure the end of the spoon fits into the hole.
2. Directly across from the small hole, cut a larger hole on the other side of the bottle. Make sure the whole is large enough for the big end of the spoon to fit.
3. Repeat steps 2 and 3 below the first two holes
4. Insert your wooden spoons.
5. Pour the birdseed into your bottle.
6. Cut a small hole into the bottle cap.
7. Feed the rope into the whole and tie a secure knot at the bottom of the rope. This will be used to hang your birdfeeder on a tree branch.
8. Put the cap on the bottle and hang your birdfeeder on your tree!
