

Dear Girl Scout Families,

USC, UCLA and UC Santa Barbara are just some of the universities our Bauerle Family Gold Award Scholarship recipients are attending. From Girl Scouts to college triathlon teams, young entrepreneurs to economic majors and earning badges in first aid to becoming pre-med students, these girls are the future of our communities.

Girl Scouts strive to make our society and world a better place by embodying the roles of environmentalists, leaders, pioneers and positive influencers. The Gold award is the highest earned achievement for high school girls and can open the door to scholarships, preferred college admissions, and career opportunities. These Girl Scouts are exceptional young leaders who have made a significant difference in our world.

The Bauerle Family observed this throughout the generations of Girls Scouts within their own family. As a family, they have remained actively involved with the Girl Scouts, working to serve both the greater community and the organization's members. Last year, seeing that there were no current Gold Award Scholarships, they decided to follow the footsteps of these proactive Girl Scouts and take action. Through their display of the Girl Scout spirit, The Bauerle Family Gold Award Scholarship was awarded to 8 high school seniors totaling \$6,750.

This year we want to continue our support of girls as they pursue their educational and career goals... and we need your help! Katherine Hodges, pre-med student at USC put it best: "I want to make sure future Girl Scout Gold Award recipients will have the opportunities given to them that were given to me through this scholarship program. It is truly life changing and can open doors for young women that were previously closed, or unimaginable"

Join Katherine and The Bauerle family as they continue to help open those doors for the next graduating class with a gift of \$250 today. Please know that every gift has an immense impact on the lives of our Girl Scouts.

We hope that we can count on your support in helping our girls follow their passions while pursuing educational and career paths.

With appreciation and gratitude,

Tammie Helmuth
