

Handprint Pirate

Supplies:

- White paper
- Black paper
- 1 googly eye (alternative: you can draw this on or make it out of paper)
- Black, red, white, and skin colored paint (alternative: other colors of paint, or markers/colored pencils/crayons)
- Scissors
- Tape or glue

Steps:

1. Paint all your fingers black except for the thumb
2. Paint the center of your palm with the skin colored paint
3. Paint a red line on the bottom of your palm
If you don't have paint: trace the shape of your hand onto the paper and fill in with color
4. Press your hand hard down onto a piece of white paper
5. When the paint dries, cut out a pirate hat out of your black paper (or draw it on)
6. Paint or draw a white skull and crossbones on the hat
7. Glue/tape the googly eye on (or draw it on) and paint or draw on a pirate's eye patch
8. Finish off the pirate by drawing/painting a big smile, and add "Girl Scouts is GRRReat!" at the bottom

Sink or Float Activity

Part 1: Sink or Float test

Materials:

- Large bowl half full of water
- Items to test
 - o Suggested: crayon, popsicle stick, small toy, coins, metal utensils, key, lemon, etc

Instructions:

1. Predict which items will sink and which will float
2. Test each item to see if you were correct

Part 2: Build a boat

Materials:

- Plastic container (empty food container, plastic cup, etc make sure it's clean)
 - o OR cut a lemon in half, take one half, and scoop out the fruit. You can use the peel for the activity
- Playdough or clay
- Drinking straw, popsicle stick, or chopstick
- Paper
- Scissors

- Glue or tape
- Coloring materials (optional)
- Small toy (optional)

Instructions:

1. Cut a triangle out of your paper
2. Decorate it if you'd like
3. Glue or tape the triangle onto the top of your straw/stick, this will be your boat's mast and flag
4. Attach the straw/stick to the center of your container or lemon half using playdough or clay
5. Add your small toy, this is your boat's captain
6. Test to see if it will float!
