Family Communication Plan

Emergencies can happen at any time. Do you know how to get in touch with your family if you are not together?

Get them know you're OK!

Put the name of each family member in contact, it might be easier to reach someone knowing what not to say.

Text, don't talk!

When you receive a message, don't call a text. Text allows you to send time getting through busy lines and you don't need to be on the phone. Texting is a safer way to communicate.
