

GSCCC ROCKS

#GSCCCrocks is a fun new crafty movement to bring joy and light to those in your community!

How it works:

- 1) ROCKS. Find a rock you can paint.
 - It should be clean and dry before you begin.
 - The size is up to you – just make sure it is big enough for your design.
- 2) Paint! Choose a design to paint.
 - This can be an inspirational quote or just a fun design; anything that will bring a smile to someone's face.
 - For paint, we recommend a cheap bottle of acrylic paint typically used in crafts.
 - Get creative – there are many other materials that work well on rocks as well so let your imagination fly!
- 3) Once you finish your design... Tag it! On the bottom of your rock, paint: **#GSCCCrocks**
 - This is for the finder of your rock to be able to track where it came from and let you know it was found!
- 4) Seal it!
 - Use Mod Podge or another clear spray sealant. This will protect your artwork from the elements,
- 5) SET IT FREE!
 - Once your creation is good and dry, look for a place to leave your rock for another to find it!
- 6) Repeat!

Be sure to keep an eye on our Facebook Page to see if anyone posts about finding your rock!

Paint. Hide. Repeat!
