

Rainbow and Fortune Teller Steps

Rainbow:

1. Fold over a paper towel long ways, and cut it to be about 7 inches
2. Draw 6 thin rectangles on each end of your paper towel, you can use ROY G BIV for a rainbow or another color combination
3. Place 2 cups with water filled $\frac{3}{4}$ of the way.
4. Then, place the paper towel into the cups, with one end in each cup (Do not place the ends too deep in the water or the dye may dissolve into the water instead of up through the paper towel)
5. Leave the paper towel in for about 10 minutes and it will eventually connect the colors together

Fortune Teller:

1. Take your sheet of paper and fold it across diagonally lining up the two sides
2. Cut off the extra strip of paper, now you have a perfect square
3. Fold all 4 corners towards the center of the paper
4. Flip over the paper, and fold all 4 corners into the center of the paper
5. Fold the square in half
6. Slide your fingers under all four flaps using both your thumbs and pointer fingers
7. Pinch your thumbs and pointer fingers together and push them towards the center
8. Now it's time to add some color
